April 12th, 2022

Object : Internship proposal from 6 to 8 weeks

Dear Mr/Mrs

I am a passionate web developer currently in training (until May 10th, 2022) and I would like to share with you my motivations for applying as an intern in your company.

Dynamic and curious by nature, the prospect of joining your team would be for me a great opportunity to put to use my professional skills as well as my recent experience acquired throughout the past months. During my recent training, including several weeks of workshops, I was able to deepen my skills in HTML/CSS, SQL and javascript and familiarize myself with various web technologies such as Nodejs and React in accordance with commonly used Patterns Designs.

As you mentioned in your offer, I share the importance of evolving in an equal opportunity workplace and I fully identify myself in your skills requirement, such as the capacity of staying professional, keeping myself well-organised and the capacity of producing content on time. It is in that spirit that I would like to involve myself within your team and share with you my passion and my personal skills in order to produce a rich and innovative result.

To find out more about my personal experience and soft-skills, I am pleased to share with you my curriculum vitae as an attachment and I remain at your full disposal for any further information.

I would like to thank you for your time and consideration and ask you to accept, Madam, Sir, the expression of my best feelings.

Yours sincerely,

Jérôme De Puyt
